TORONTO, ONTARIO

PREFACE

These materials are prepared for teaching purposes only. They are provided only for the purpose of discussion in class. They are to be used for no other purpose. The aim of these materials is to introduce the student to some general principles relating to the Law of Real and Personal Property. Volume I deals with some aspects of the Law of Personal Property. Volumes 2 to 5 are concerned with some aspects of the Law of Real Property and also with Leaseholds.

This material does not purport to be comprehensive or exhaustive. Further, it is compiled on the assumption that other topics, including, for example, land use planning, land finance, land development, real estate transactions, community planning, environmental control, and expropriation are dealt with later in the curriculum. These topics are not included within the scope of this Casebook.
